I. Executive Summary

I. Executive Summary

The following is the Community Health Needs Assessment for Harper County, KS for 2015. Tackling the community needs and creating a healthier environment is a very difficult task. It requires a unique understanding of the community and collaboration between multiple individuals and groups. The 2015 assessment re-evaluates the needs identified in the 2012 assessment and identifies any new community needs. This will provide information for continued improvement in these areas.

The Harper County Health Department, Harper Hospital District #5, and Anthony Medical Center collaborated to conduct this Community Health Needs Assessment (CHNA).

An online and paper survey was conducted to obtain from the community its current needs. The results were tallied and analyzed. The 2015 CHNA identified that the same needs that were present in 2012 remain present in 2015. The top four needs identified are as follows:

1. Service/Referral Integration between Anthony Medical Center & Harper Hospital District #5
2. Alcohol and Drugs (Meth and Marijuana)
3. Training for EMT/Dispatch
4. Lack of family support system for kids

Statistical information indicates the population of Harper County continues to decline, while the number of residents living in poverty has increased. There has been a decline in the health behaviors of people in the county. Specifically, adult obesity and physical inactivity have increased while access to exercise opportunities has decreased.

There has been an ongoing effort since 2014 between Anthony Medical Center and Harper Hospital District #5 to consolidate/integrate services. Several steps have been accomplished towards achievement of this endeavor.

Harper County KS

County Healthcare Strengths

- Senior Citizen Meals
- Access to specialty care (Cardiology, Urology, Orthopedics, Oncology, gynecology)
- Harper Community Foundation – grant funds
- Two pharmacies
- Quality Health Care Providers
- Good Senior/Hospital Facilities
- Good public transportation
- Great imaging services
- Stroke-ready classification
- Level IV trauma certification
- Fire Department/24 hour EMS
- Dentist/Eye Doctor
- Summer food program for kids
- Good quality of life
- Access to Wellness/Fitness Center
- Long-term care choices
- Quality Health Department Services

II. Methodology

II. Methodology

a. Scope and Purpose

The Federal Patient Protection and Affordable Care Act requires that each registered 501(c) 3 hospital conduct a Community Health Needs Assessment (CHNA) at least once every three year and adopt a strategy to meet community health needs.

#1 Meet/Report IRS 990 Required Documentation

1. A description of the process and methods used to conduct the CHNA
2. The identity of any and all organizations with which the organization collaborated and third parties that engaged to assist with the CHNA
3. A description of how the organization considered the input of persons representing the community
4. A prioritized description of all the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs
5. A description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA

#2 Making the CHNA Widely Available to the Public

An organization would make a facility's written report widely available by posting the final report on its website either in the form of (1) the report itself, in a readily accessible format, or (2) a link to another organization's website, along with instructions for accessing the report on that website.

#3 Adopt an Implementation Strategy

Section 501(r) requires a hospital to adopt an implementation strategy to meet the needs identified through each CHNA. The notice defines an "implementation strategy" as a written plan that addresses each of the needs in a CHNA by either (1) describing how the facility plans to meet the health need, or (2) identify the health need as one the facility does not intend to meet and explain why the facility does not intend to meet it.

II. Methodology

b. Collaborating CHNA parties

Listed below is a profile of the parties that collaborated to conduct the 2015 Community Health Needs Assessment:

Harper County Health Department/Harper County Home Health Agency

Administrator: Sherry Houston, LBSW

123 N. Jennings Anthony, KS 67003

Phone: 620-842-5132

The Harper County Home Health Agency opened in 1966 and public health services were added a year later through the Harper County Health Department. The agency currently offers a full array of services including Basic Health Services, Immunizations, WIC, Healthy Start, Car Seat Inspections, Family Planning Services, Disease Investigation, Public Health Emergency Preparedness Planning and short term and long term home health services. Anthony location is open Monday-Friday 8:00 a.m. to 5:00 p.m. Attica location is open 1st & 3rd Tuesday 9:30 a.m. to 11:30 a.m. and Harper location is open Wednesdays 9:00 a.m. to 11:30 a.m.

Purpose – To provide Harper County citizens with comprehensive, cost effective, and quality home health and public health services.

Harper Hospital District # 5

Interim CEO: Sandra Owen

700 W. 13th Street Harper, KS 67058

Phone: 620-896-7324

Harper Hospital District # 5 is a 25 bed critical access hospital featuring primary, emergency, acute, skilled, and long term care as well as comprehensive outpatient surgery. The continuum of care enhanced by Harper's Wellness Center and Heritage Estates, an assisted living environment.

Vision Statement – Harper Hospital is dedicated to improving the quality of life in the communities we serve.

Anthony Medical Center

Interim CEO's: Kim Barwick, Lori Allen

1101 E. Spring Street Anthony, KS 67003

Phone: 620-842-5111

Anthony Medical Center is a multi-campus facility that combines hospital inpatient and Outpatient services with primary care and wellness. Patients of all ages may be seen locally at the Anthony Primary Care Center or the Outpatient Specialty Clinic. AMC also operates a clinic in Argonia, KS as well as owning and operating the Wellness Center, which serves the community's healthy lifestyle needs.

Purpose: Providing "Patient-Centered, Family-Focused" care for all of Harper County and the surrounding areas.

II. Methodology

c. Community Health Needs Assessment Survey

The Community Health Needs Assessment began in November of 2015. The Harper County Health Department, Harper Hospital District #5, and Anthony Medical Center, met to determine the method and steps involved in conducting the Community Health Needs Assessment.

Preliminary research was conducted to determine the health status and historical information of the county via Kansas Health Matters and countyhealthrankings.org.

It was determined an online/paper survey would be utilized to assess the needs of the community. A survey of eight questions was developed. The survey questions were based on indications from the prior Community Health Needs Assessment conducted in 2012 and current community issues.

This survey was made available online via Survey Monkey as well as distribution of paper copies. The survey was made available to the public in November of 2015. Advertising was placed in the County newspapers to notify the public of the survey as well as notification via social media (Facebook, etc.). The paper copies were distributed in various public locations in Anthony, Harper, Attica, Bluff City, and Danville. The survey remained open until December 4th, 2015. The results from the paper surveys were then manually entered into Survey Monkey which allowed for electronic tallying and analysis.

Harper County

Community Health Needs Assessment

The purpose of this survey is to meet the requirements of the Affordable Care Act to assess the health needs of Harper County. This is a joint venture between the Harper County Health Department, Harper Hospital District #5, and Anthony Medical Center. Please fill out and return to one of the three organizations or to the city offices of Anthony, Harper, or Attica by December 5, 2015.

1. The last Harper County Community Health Needs Assessment that was conducted in 2012 indicated priority be given to the following identified issues:

- A. Service/Referral Integration between Anthony Medical Center and Harper Hospital District #5
- B. Alcohol & Drugs (Meth and Marijuana)
- C. Training for EMT/Dispatch
- D. Lack of family support system for kids

In your opinion should these remain priorities for Harper County or should they change?

- ☐ Remain the same
- ☐ Need to change

Comments: _____

2. How would you rate the "overall quality" of healthcare in Harper County?

- A. Very good
- B. Good
- C. Neutral
- D. Bad
- E. Very Bad

3. What do you believe are the three MOST important issues that must be addressed to improve healthcare and quality of life in Harper County?

- A. Healthy food choices
- B. Drug & Alcohol Use
- C. Communication
- D. Consolidation of services
- E. Poverty
- F. Obesity
- G. Access to healthcare services
- H. Housing availability
- I. Economic development
- J. Other: _____

4. Are you a resident of Harper County?

- ☐ Yes
- ☐ No, which county do you reside in? _____

5. What healthcare services have you received outside Harper County in the last two years?

- A. Primary Care Services
- B. Physical Therapy
- C. Radiology
- D. Speech Therapy
- E. Occupational Therapy
- F. Laboratory
- G. Specialty Care (cardiology, oncology, dermatology, etc.)
- H. Surgery
- J. Other: _____

6. What additional health services need to be offered to meet health challenges in the community?

7. Please indicate your age group by circling below.

- A. 18-24
- B. 25-34
- C. 35-44
- D. 45-54
- E. 55-64
- F. 65+

8. How do you feel about a merger between Anthony Medical Center and Harper Hospital District #5?

- A. Very Supportive
- B. Supportive
- C. Not Supportive
- D. Don't have enough information on the subject

Comments: _____

**Thank You for taking the time to
invest in your local healthcare!**

III. Community Health Status

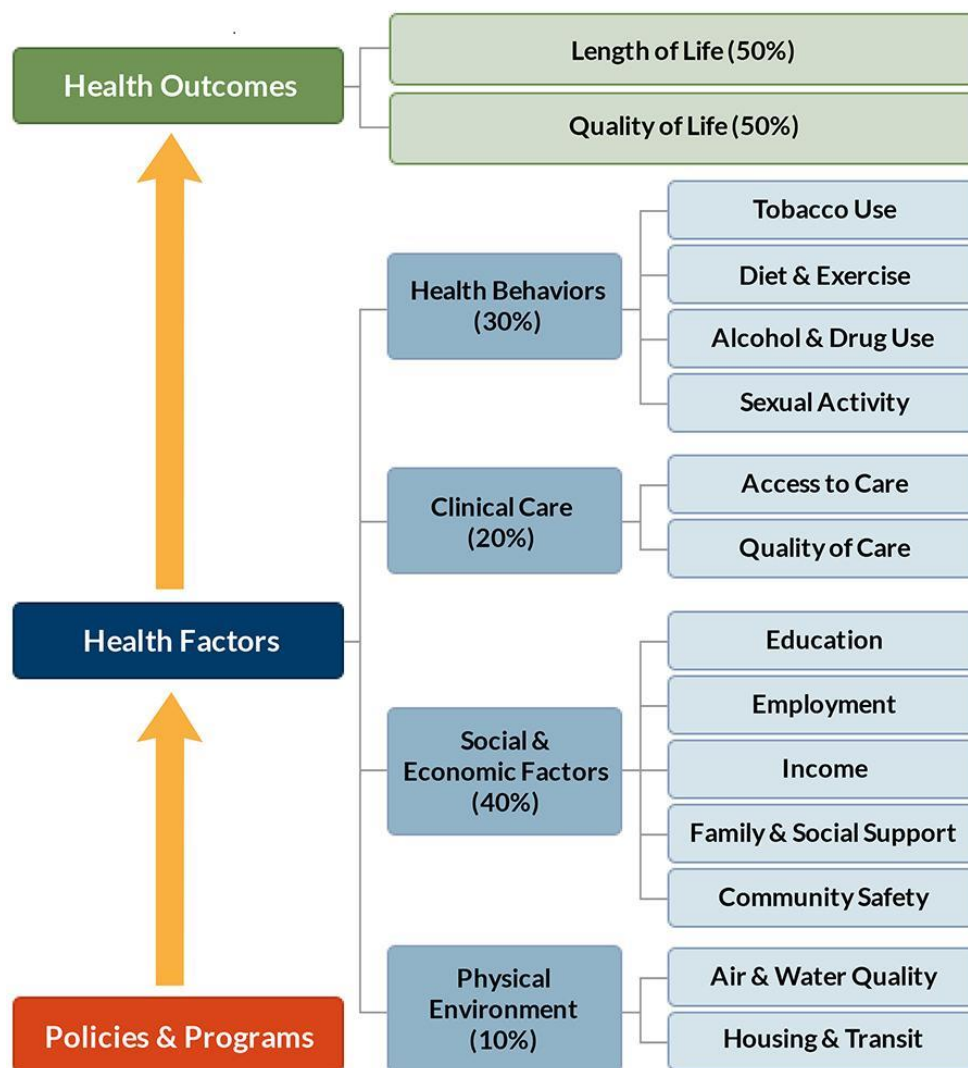

III. Community Health Status

a. Historical Health Statistics

Health Status Profile – Harper County, KS

This section of the CHNA reviews published quantitative community health indicators. The data was gathered from multiple sources to provide an overview of the health status of Harper County.

The Robert Wood Johnson Foundation collaborates with the University of Wisconsin Population Health Institute to release annual County Health Rankings. As seen in the model below, these rankings are based on a number of health factors.

County Health Rankings model © 2014 UWPHI

2015 County Health Rankings - Robert Wood Johnson Foundation				
Category	Description	Ranking (out of 101)	Trend	2012 Ranking
Physical Environment	Environment Quality	65		52
Health Factors		73		80
Clinical Care	Access to care/Quality of care	90		88
Social & Economic Factors	Education, Employment, Income, Family/Social Support, Community Safety	60		74
Health Outcomes		60		63
Health Behaviors	Tobacco use, Diet/Exercise, Alcohol use, Sexual Activity	74		52
Morbidity	Quality of Life	21		28
Mortality	Length of Life	84		84

<http://www.countyhealthrankings.org>

The above chart indicates there have been improvements in several areas over the past three years. The Health Factors and Social and Economic factors have moved up in ranking. The quality of life has improved while the length of life remained the same. Unfortunately, the health behaviors have seen a significant decrease.

According to survey results 66.36% of survey participants felt the “overall quality” of healthcare in Harper County was “very good” or “good”. While 29.03% were neutral and 4.61% felt the “overall quality” was “very bad” or “bad”. Participants were asked what three issues must be addressed to improve healthcare and the quality of life in Harper County. Access to healthcare, drug and alcohol use, and consolidation of services were the three most important issues participants felt need to be addressed to improve healthcare and quality of life in Harper County. Services that have been obtained outside the county in the last two years were Specialty care (50.24%) and Surgery (35.41%). It appears at least some of these services were services not currently offered in the county. Primary Care Services (30.14%) were another service that was obtained outside the county. There are currently three primary care clinics in the county. There were several additional services that participants would like to see offered in the county. Some of the top ones were dermatology, OB/GYN, pediatrics, and chemotherapy. When asked about a possible merger between Anthony Medical Center and Harper Hospital District #5 50.74% were very supportive, 19.70% supportive, 9.85% not supportive, and 19.70% did not have enough information on the subject.

Attica	254-7291	254-7265
Harper	896-2511	896-2511

This community resource guide was put together by the Harper County Interagency Coordinating Council (ICC) members as a resource guide for services available in Harper County. The goals of the ICC are to enhance communication and sharing among community service agencies, identify community needs and agency roles and responsibilities, coordinate services between existing agency programs, and ensure a continuum of services through shared resources to benefit the residents of Harper County. The group meets biannually alternating between a site at Anthony and a site at Harper.

If you are interested in attending and/or participating in the meetings, please contact Joyce Kaup (620-842-3743) or Sherry Vierthaler (620-842-5132) for current meeting information. We hope to continue to develop the directory over time and publish updates on a routine basis. If you see errors or omissions in any of the information, please contact Sherry Vierthaler at the Harper County Health Department/Harper County Home Health Agency (620-842-5132).

AGENCY BIOGRAPHIES

American Cancer Society – 300 South Main St., Suite 100 Wichita, KS 67202; Telephone: 800-227-2345; Fax: 316-265-3490; Website: www.cancer.org. More than one million people in the United States get cancer each year. Whether you have cancer or are close to someone who does, understanding what to expect can help you cope. We can provide basic information about cancer and what causes it, as well as in-depth information about specific types of cancer, their risk factors, early detection, diagnosis, and treatment options. We can help you learn about making treatment decisions, coping with side effects, handling financial matters, caregiving, and living well after cancer. Many cancer deaths could be prevented by making healthy choices like not smoking, staying at a healthy weight, eating right, keeping active, and getting recommended screening tests. We can help you learn how to help lower your chances of getting cancer, plus what screening tests the American Cancer Society recommends, and when. Research is at the heart of our mission. For more than 65 years, the American Cancer Society has been finding answers that save lives - from changes in lifestyle to new approaches in therapies to improving cancer patients' quality-of-life. In fact, no single nongovernmental, not-for-profit organization in the US has invested more to find the causes and cures of cancer. Want to do a lot of good with a little of your time? Whether it's giving a cancer patient a ride to chemotherapy, putting together a team for Relay For Life®, or sending an email to friends and family about our cancer screening guidelines, there are multiple ways you can join the fight against cancer.

Anthony Medical Center – Be assured you will receive patient-centered, family-focused care at Anthony Medical Center (AMC). With a primary care (family medicine) clinic, hospital, wellness center, and the areas only dedicated outpatient specialist clinic all under one roof, staff works together closely to make sure that you get as much of your care as possible delivered at home the way you want it delivered.

Patients of all ages may be seen locally at the Anthony Primary Care Clinic or the Outpatient Specialty Clinic. Anthony Medical Center also operates clinics in Hardtner and Argonia, KS as well as owning and operating the Anthony Wellness Center, which serves the community's healthy lifestyle needs. The Outpatient Specialist Clinic has multiple visiting specialists for your convenience. Visiting specialties include: cardiology, OB/GYN, urology, orthopedics, oncology, hematology, rheumatology, and general surgery.

Some of the services offered at AMC include: MRI, CT, the areas only digital mammography, sonogram, the areas only true DR x-ray equipment, bone density testing, clinical laboratory, physical, occupational, and speech therapies. Anthony Medical Center also provides state of the art care in the areas only stroke ready, level IV trauma center, and HIMSS stage 6 emergency facility. The ER is equipped with lifesaving fiber optic technology, and has staff certified in advanced cardiac life support and advanced trauma life support.

Anthony Medical Center – 1101 East Spring, Anthony, KS 67003 – 620-842-5111 or Toll free 866-842-5111. Anthony Primary Care Clinic – 620-842-5144. Anthony Wellness Center – 620-842-5190.

Harper County Community Hope - Harper County Community Hope (HCCH) is a coalition of faith based entities, business and professional leaders, and community members. We believe in Harper County and the families that make up our community, and desire to be a hand up to anyone in need within the county.

As an organization, HCCH strives to be knowledgeable of all current resources available to our residents, as well to bring new resources and partnerships to Harper County. We are able to help individuals and families in a variety of different ways including directing them to the appropriate resources required to meet their needs.

We at HCCH believe we are all stronger together and we welcome involvement from every area of our community. There are a variety of ways your partnership can benefit the community as a whole such as; sharing resources and local ministry information with us, donating your time and/or professional expertise or services. Additionally, as a 501©3 non-profit, your tax deductible donations allow us to help others in crisis.

Please contact us at harpercountyhope@gmail.com or by calling 620-842-2091. Tax deductible donations can be sent to HCCH at PO Box 1 Anthony KS 67003.

AGENCY BIOGRAPHIES (Continued)

Horizons Mental Health Center – 123 N. Pennsylvania, Anthony, KS 67003 620-842-3768 or 800-794-0163. Horizons provides individual and family psychotherapy for people ages 4 and up, Community Based Services for seriously emotionally disturbed children and their families, and Community Support Services for Adults who have serious and persistent mental illness. We offer employment services, parent support services and psychiatric medication services to all ages in need. Horizons is also the gatekeeper for admissions to Larned State Hospital and must provide emergency mental health screenings and services 24 hours a day. Paired with these mandated services, Horizons also participates on many community boards and councils including the local Interagency Coordinating Council, Multidisciplinary Child Protection Teams, Juvenile and Adult Corrections Boards, and respond to other agencies when the need arises. We coordinate and participate in the local school districts' Personal Safety Awareness Program, and are mandated reporters of suspected child abuse. We conduct court ordered Psychological Evaluations, Court Competency Evaluations and frequently testify in court when appropriate. We are trained to complete Level II nursing home screens, Drug and Alcohol Evaluations, and ADHD Evaluations. We frequently consult with hospital staff, law enforcement, school personnel, attorneys, court service offices, social service agencies, foster care agencies and primary care physicians. In Harper County, Angela Baker is contracting with Early Head Start, providing consultation services. Visit us on the web at HMHC.com.

K-State Research & Extension (Harper County).– K-State Research and Extension in Harper County is dedicated to a safe, sustainable, competitive food and fiber system and to strong, healthy communities, families, and youth through integrated research, analysis, and education.

We offer useful programs and information in the following areas: 4-H, Crops and Livestock, Business and Economics, Environment, Home and Family Health, Health and Nutrition, and Lawn and Garden.

You can visit or contact us at 819 Central, Harper, KS 67058; (620) 842-5445;
Website: www.harper.ksu.edu.

Military OneSource – Military OneSource is a 24/7 assistance line and website for military families to access military family programs, educational materials, and community support resources at no cost. For 24/7/365 assistance, military families are encouraged to contact Military OneSource at 800-342-9647 or to visit www.militaryonesource.com.

TFI Family Services – Telephone: 877-921-4114. TFI Family Services is a private non-profit statewide child welfare and behavioral health organization that was founded in 1965. Survey Results

Harper County Community Health Needs Assessment

217 PEOPLE

participated in a Harper County Health Needs Assessment

These assessments and strategies create an important opportunity to improve healthcare in Harper County. The Harper County Health Department, Harper Hospital District #5, and Anthony Medical Center are pleased to present the results of the survey as demonstrated by the following.

QUESTION ONE

TOP COMMENTS:

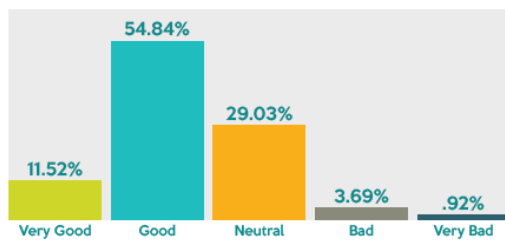

"Anthony and Harper need to combine resources to provide the **best medical care** for the entire county."

"Create more activities for children to keep them **off the streets & away from drugs.**"

75% of survey participants believed that the following issues are and should remain the **highest priority** in Harper County:

- Service/Referral Integration between Anthony Medical Center and Harper Hospital District #5
- Alcohol & Drugs (meth/marijuana)
- Training for EMT/Dispatch
- Lack of family support system for kids

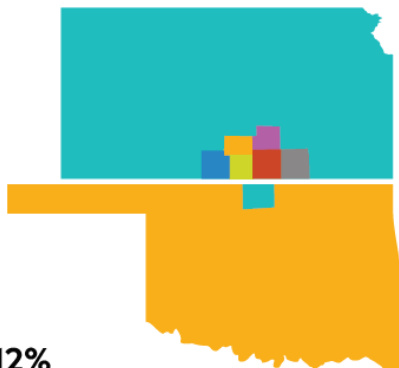

QUESTION TWO

"Overall Quality" of healthcare in Harper County

QUESTION FOUR

88% of all survey participants are from Harper County

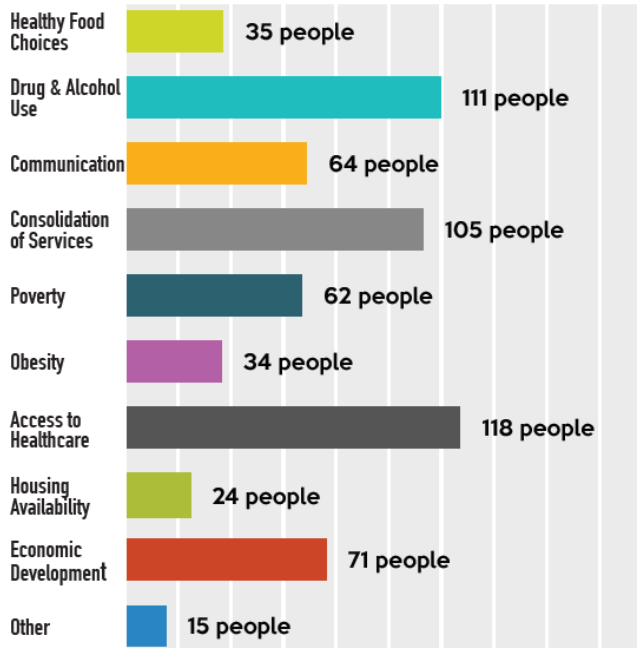

12%

were from Grant, Sumner, Cowley, Sedgwick, Barber, and Kingman counties

QUESTION THREE

Participants were asked to select 3 out of 10 issues that must be addressed to improve healthcare and quality of life in Harper County.

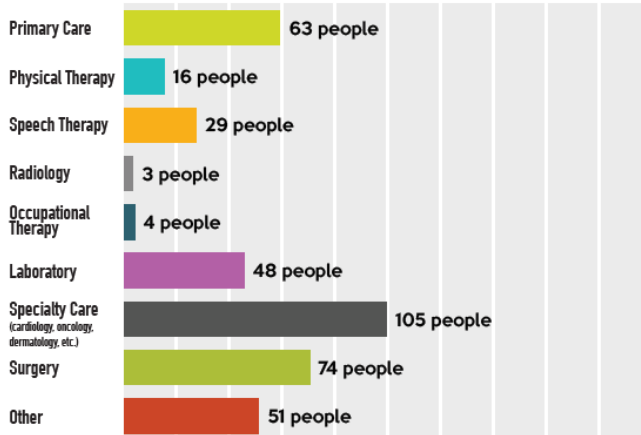

Others Included: EMT Services, Low Income Housing, Mental Health, Affordable Health Insurance, etc.

Harper County Community Health Needs Assessment

QUESTION FIVE

Services participants received outside Harper County in the last 2 years

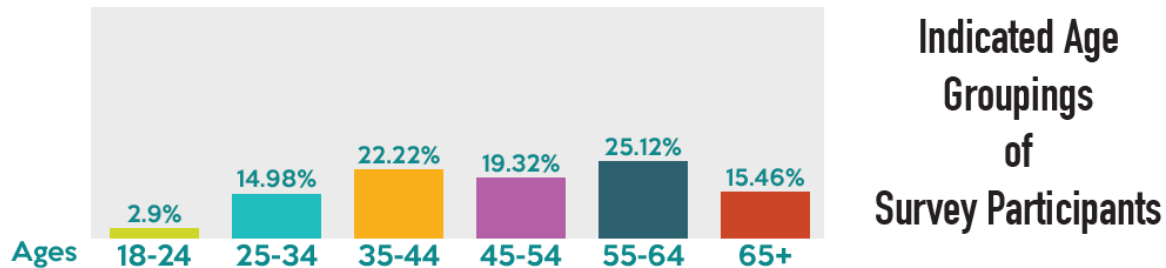

Others Included: Chiropractic, Dental, Optometry, Pediatrics, OB/GYN, & Podiatry

QUESTION SIX

TOP 5 Additional Health Services identified to meet health challenges

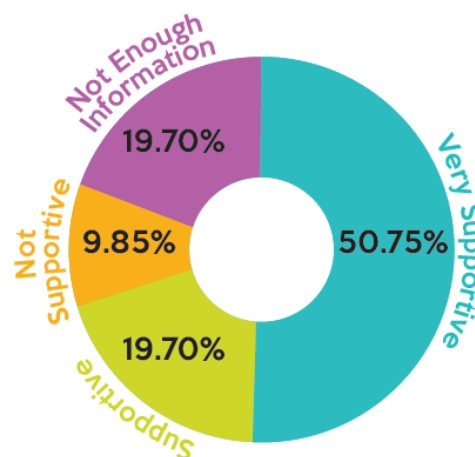

1. OB/GYN
2. Pediatrics
3. Chemotherapy
4. Dialysis
5. Dermatology

QUESTION SEVEN

QUESTION EIGHT

Survey participants were asked how they felt about a merger between Anthony Medical Center & Harper Hospital District #5

Thank you to all that participated for taking the time to invest in your local healthcare!

Q1 The last Community Health Needs Assessment conducted in 2012 indicated priority be given to the following items:

A. Service/referral integration between Anthony Medical Center and Harper Hospital District #5 (Meth and Marijuana) EMT/Dispatch

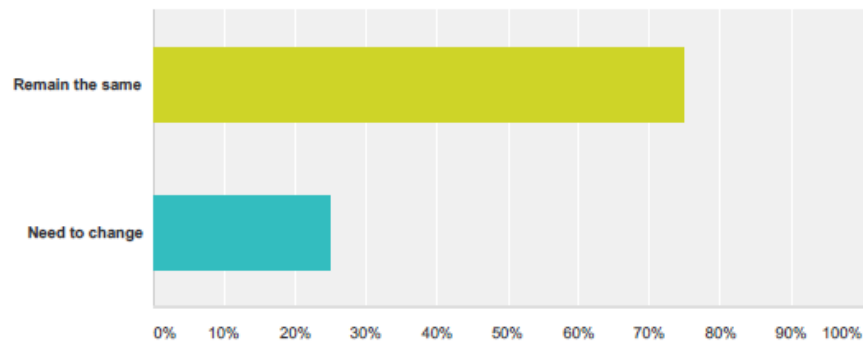

B. Alcohol and Drugs

C. Training for

D. Lack of family support system for kids

In your opinion should these remain priorities or should they change?

17	Services need to be combined into one hospital	11/19/2015 12:51 PM
18	Teach EMS common landmark names.	11/19/2015 12:43 PM
19	I am new to the county, 2 years ago. Not aware of the previous needs assessment.	11/19/2015 10:02 AM
20	I believe hospital integration is imperative; however, there are many other community needs that should be considered as well.	11/19/2015 7:44 AM
21	These areas are improving but still a serious problem especially in the drug area.	11/18/2015 5:18 PM
22	I think there needs to be much more common ground between the hospitals -- this is too small of a community for services not to be a joint venture.	11/18/2015 2:12 PM
23	The distance between facilities should be eliminated, making it easy to refer patients and collaborate with other physicians.	11/18/2015 11:59 AM
24	EMS needs to be privatized with an experienced company I believe integration between Anthony & Harper is important along with the drug problem in this county which unfortunately goes along with family support for kids & parents	11/18/2015 11:43 AM
25	I believe these should be included, but may want to add more.	11/18/2015 11:41 AM
26	Training for EMT/Dispatch does not seem like it should be in the top 4	11/17/2015 1:01 PM
27	Focus on urgent care-basic trams care and transport to major trauma center	11/16/2015 2:18 PM
28	dont know what the first one means.	11/16/2015 1:07 PM
29	Combine health resources	11/16/2015 12:49 PM
30	Anthony and Harper need to combine resources to provide the best medical care for the entire county.	11/16/2015 11:59 AM
31	If they are in order of priorities A, B, C, D then I would suggest they change orders to B, D,A,C thanks	11/16/2015 10:32 AM
32	This is 2016, where have you grown on these areas, and which remain a high need and priority still...how are you tracking data in these areas of need to see where the gap is closing or increasing in need.	11/15/2015 8:49 PM
33	find more activites for the kids to do, keep kids off of the streets, make a safer place for the kids to grow up in!!!!!!!	11/13/2015 7:33 PM
34	more for kids, tougher on drugs .	11/13/2015 7:12 PM
35	I am new to the area but families that are in need of help do not seem to be getting what the need. To help fix poverty we need to provide resources to families so they can become better members in the community, become more education in a variety of areas, and learn how to change their poverty situation and support their families without going to drugs.	11/13/2015 6:13 PM
36	Harper and Anthony hospitals are improving their communication and resources to the community.	11/13/2015 5:18 PM
37	acbd.	11/13/2015 5:08 PM

83	There are families out there that have drug issues that cause family issues between husband and wife which reflects on the children weather school age or not. These families need help with finances, counseling for drugs/alcohol & marriage as these are family diseases. they need affordable housing and help with vehicles to get to and from job, groceries stores etc... They need to know that we as a society have not given up on them but are willing to help but need to see some improvement from them and not enable them. Arresting/jail is not always the best answer if we don't have some kind of a class/group/counseling where they can go for help. Then when something like this in set up in our county it needs to be put out there in the media so every family has the opportunity to receive it. They shouldn't need to jump through hoops to receive it but should be seen to help in each individual situation.	11/16/2015 10:39 AM

SurveyMonkey

12	Necessary?	12/9/2015 3:45 PM
13	No sure Cerner can be trusted	12/9/2015 3:44 PM
14	A few board members appear to want to hold on to the power they have and are making the merge difficult. I believe the public at large supports the merge.	12/9/2015 3:42 PM
15	The merg will bring everything together in one place. More doctors/experience	12/9/2015 3:33 PM
16	This was the 1st question I asked when I got down here was why are there 2 facilities 10 miles apart. I'm from a bigger town/city and money is better spent on one facility.	12/9/2015 3:22 PM
17	I would like a community meeting.	12/9/2015 3:19 PM
18	Not knowing history but seems like they should work with each other??	12/9/2015 3:05 PM
19	Keep community centered (in Anthony, Harper, Attica) Satellite clinics, where patients/doctors, PACs, meet face to face with on-site x-ray, lab and pharmacy facilities. Keep a few beds for acute illness care, end of life (hospice) and out-patient observation or isolation, and for multiple disaster casualties. Also the wellness - type classes and exercise equipment are very good in the community. Need ER doctor at each clinic in addition to clinic staff. If build something new - stand alone facility - (1) Build a special care rehab center where patients may stay a week or two for rebuilding muscle strength, speech, life skills. Also if doctor found, do casts and metal implants and ore build a cancer therapy center for IV infusion, chemotherapy and radiology treatment. Include special nutrition therapy - more than just a dietician. Not to big, leave room for expansion if needed. Thanks to you all for working on caring for patients	12/9/2015 3:04 PM
20	Hopefully they can make use of Hosp. Buildings so they aren't closed - Drug/Alcohol treatment facilities etc.	12/9/2015 2:55 PM
21	of how this would be. Where to meet, were all the long patients would go to one place or the other then room for them.	12/9/2015 2:52 PM
22	From personal experience, I don't feel comfortable with most providers and nurses in Anthony.	12/9/2015 2:47 PM
23	Why have 2 centers in the "red" when it could be in the "black"? No Brainer!	12/9/2015 2:45 PM
24	Need input from citizens - Harper has more/better providers & need to keep.	12/9/2015 2:38 PM
25	Too many unanswered questions to support a merger. What would be done with the buildings, who would pay for the current debts? A new combined hospital doesn't make economic sense, would we let go half the staff to gain efficiency? How is moving the location changing the quality of care? This survey should of been mailed to every tax payer. Transparency is everything!	11/30/2015 12:22 PM
26	Very important to reduce costs and maintain good healthcare locally.	11/24/2015 11:58 AM
27	Close both hospitals and have an ER and clinic in each town. Quit wasting our taxpayer money.	11/23/2015 10:29 PM
28	I haven't been given enough information to make an informed decision. You need to talk to the taxpayers.	11/23/2015 10:24 PM
29	When are you going to give the taxpayers information about the "merger"? The taxpayers will ultimately make the decision about what will happen. When are you going to listen to what the taxpayers want??	11/23/2015 10:20 PM
30	If that's the only way for a hospital to remain in this area, then it's the thing to do.	11/23/2015 1:46 PM
31	We desperately need to consolidate for the purposes of creating a more well funded medical facility which can accomplish more and attract higher quality practitioners.	11/20/2015 8:31 AM
32	don't leave vacant buildings	11/19/2015 3:51 PM
33	a great opportunity to create sustainable health care in Harper County.	11/19/2015 12:55 PM
34	I currently live in Anthony. My Dr. is in Harper (Bradshaw). I changed 4 times in moving here. I would hate to loose her.	11/19/2015 12:50 PM
35	Put in layman terms not government jargon	11/19/2015 12:45 PM
36	I hope the people involved in making the decisions look at the community as a whole and just not what they want to see. Everyone needs to work together or this will never work. As I said before we will continue to see our specialists in Wichita regardless of what decisions are made.	11/19/2015 8:39 AM
37	I believe this is imperative to improve health care access and quality in Harper County. Additionally, we have long supported duplication of mediocre services while ignoring opportunities to collaborate and provide the best care for the entire county.	11/19/2015 7:54 AM

Harper County Community Health Needs Assessment

SurveyMonkey

38	Although I understand all too well how residents of Anthony and Harper could see the merger as lessening services, I came from Miami County - larger towns to some extent and definitely a larger county....there is one common hospital that is to the outskirts of the town of the county seat (with a clinic) and a great clinic in the other town. All physicians, plus specialists, have authorizations (or whatever the terminology is) at the hospital and the County has always had great service. There have been few complaints about this set up and it's been this way for years (before the new hospital was built, it was actually located within the city limits). Again, with great clinics and emergency services, there were no general problems. Small counties such as Harper cannot continue to fund separate major facilities if they want to survive, and thrive - resources, funding and training must be combined.	11/18/2015 2:19 PM
39	Before long these hospitals will be seen as "bandaid clinics" and will be shut down by the government. Combining the two hospitals would increase access to care, bring new physicians and specialties in, and overall help the economy	11/18/2015 12:03 PM
40	Both entities are far to close to not merge and be able to share patient information	11/18/2015 11:56 AM
41	I believe a merge is necessary for better services & more specialized services. I don't think both hospitals can survive into the future separately.	11/18/2015 11:47 AM
42	We need this!!!!	11/18/2015 11:38 AM
43	As of now, I would rather drive to the Harper for any health issues that I have because I feel they address my problems in a better manner than Anthony Medical Center. Harper is much more professional and I feel that I get better service when going to them. The last time I went to Anthony the doctors did not act in a professional manner and I did not take them seriously.	11/18/2015 9:50 AM
44	I think it is a great idea. All your information would be in one place and then you would have a bigger group of doctors in case something went really wrong.	11/18/2015 8:04 AM
45	This merge needs to happen for all people of this county before it is too late. Harper County is not large enough to support 2 hospitals. The time is now. We cannot afford to be without healthcare in the county.	11/17/2015 10:27 AM
46	if it doesn't cause people to lose there jobs and move away	11/17/2015 5:19 AM
47	To keep a hospital in Harper County we will have to merge our hospitals. I understand a party is willing to help pay for a new building. This offer will probably not be held out for us forever. I will not be surprised for Harper County to lose both Hospitals because we are too hard headed to work together.	11/16/2015 8:19 PM
48	I think this is a necessity if we are to continue to offer quality health care in Harper County.	11/16/2015 4:02 PM
49	I am not in favor of moving hospitals or building a brand new hospital near the high school. If there are ways to gain efficiencies then we should do that.	11/16/2015 1:10 PM
50	This has taken too long to materialize-it needs to get done for the benefit of the county!	11/16/2015 12:51 PM
51	I think that both towns should have access to a hospital. People from Anthony do not want to drive 8 miles north to a hospital and people from Harper do not want to drive 8 miles south for hospital care. I think that the Hospital board could run both hospitals but do not close either one of them. Have a general care facility available for both towns and have specialized care such as a heart clinic in Anthony and a dementia care in Harper. Don't completely shut down one town. Each town should have at least a clinic in their town. Either way that you look at it, it will hurt one town or the other economically wise. If you decide to close either town. OR here's an idea, you could purchase the land across the highway from Chaparral High School and build a big county hospital and shut both towns down. If that would be the case, then each down would need an emergency care facility and if a person needed to go to the centrally located hospital (the proposed Chaparral area) then it would be up to the health care to provide transportation to that hospital.	11/16/2015 12:24 PM
52	Should have been done years ago.	11/16/2015 11:37 AM
53	The merger in my opinion is a must!!!!	11/16/2015 11:13 AM
54	I really feel until out two towns coordinated together we are going to keep seeing the same issues with drugs, hospitals not being able to support jobs for both towns. If we could all work together for the good out our communities it would be amazing what we could accomplish together.	11/16/2015 10:41 AM
55	My response is based on being a Harper County resident for over 30 years prior to moving this past summer.	11/16/2015 8:41 AM
56	I am in full support of a merger between the two hospitals. I believe it would improve the health care in Harper County by providing a more efficient and diverse health care system for the county.	11/16/2015 7:52 AM
57	Work together or die off? Is this really a necessary question? SHEESH.	11/14/2015 10:20 AM

Harper County Community Health Needs Assessment

SurveyMonkey

58	If they would finally decide to work together we might actually be able to recruit and retain quality medical staff who would develop respected relationships with the area's larger more complex health systems (via Christi, Wesley, integris bass, etc). The two facilities have a treasure trove of amazing and knowledgeable people but neither place has enough people who are all quality to offer much competency beyond just basic health concerns. We also lose out on a lot of options because of the silly feud between the two hospitals/towns. People that would otherwise love to live in this area and practice medicine are very turned off by the fact that the people living in this tiny county can't see past what their respective zip codes are. It's sad!!	11/13/2015 10:03 PM
59	If keeping a hospital and medical services in Harper County is dependent upon a merger between the two service centers, then I support it. If both facilities can remain open, stNding on their own, I prefer that.	11/13/2015 7:10 PM
60	It is about time.	11/13/2015 5:20 PM
61	I used to work years ago at one of the hospitals when it was talked about and we actually started to cross train with some of the women from the other hospitals business office. All of a sudden it was stopped. We were never given an explanation. Found out later that some of the doctors made threats and threw fits so it did not happen. A merger is long overdue. This split between Harper and Anthony needs to stop. We are are a county with a population that hovers around 6000. The land owners carry the majority of the tax burden. It is rediculous that we have been made to support 2 seperate hospitals all because each town thinks that they will be on the loosing end of the stick. Wake up HP CO. We will all loose if neither town is able to keep a hospital. Not a lot of forward thinkers here that is for sure.	11/13/2015 5:05 PM

VI. Implementation Plan

The number one priority in the CHNA for both 2012 and 2015 was the intergration of services between Anthony Medical Center and Harper Hospital District #5. In late 2014 the hospitals began to work together to address this issue as described below.

In November of 2014 the boards of Anthony Medical Center and Harper Hosptial District #5 along with representatives from Via Christi and Cerner Corporation established a formal work group to begin the process of intergrating services. Initally, the workgroup consisted of two board members from Anthony Medical Center, Martha Hadsall and Alan Patterson, two board members from Harper Hospital District #5, Kimberly Schrant and Lisa Mathes, Jody Gragg from Via Christi, and Jessica Hunt from Cerner Corporation. The group met via conference call on Monday afternoon of each week to discuss next steps in the process. Eventually the marketing directors, an employee representative, and the interim CEO's from each hospital were added to the workgroup.

In April of 2015 a Hospital Assessment and Financial Impact Anaylsis was performed by Leavitt Partners. The report looked at the economic and demographic information for Harper County. The report indicated a declining population in the county that would ultimately impact the hospitals' service volumes and utilization rates. According to the study both hospitals have low utilization rates compared to Kansas' statewide average. That being said Kansas' average utilization rate is also low compared to the national average (39% v. 50% respectively). Anthony Medical Center's utilization rate was at 30% while Harper Hospital District #5 utilization rate was at 35%. The data indicated a trend where the utilization would continue to decline.

A financial analysis of each hospital was also conducted. The first major trend identified was the growing year-on-year operating losses for both hospitals. The increasing operating losses are attributed to net patient revenue that has declined or remained stagnant while total operating expenses have continued to rise. It has been difficult for both hospitals due to the limited population base that has continued to decline and the fact similar services are offered by both. Trending current operating losses forward five years shows that operating losses for both Anthony Medical Center and Harper Hosptial District #5 will continue to grow. The general concensus is that both hospitals will be closed in five to ten years if nothing is done today to protect their financial viability.

The Leavitt anaylsis presented four options to protect the hospitals' financial viability. The option recommended by the analysis was to build a new consolidated facility. This option was the most viable as it would allow the hospital to increase the utilization rate and patient volumes, expand services, and promote integrated care, among many other positive factors. There is also a potential for significant private funding to pay for the cost of the new facility. Due to these factors this option has the best potential to result in long-term financial sustainability. As such, it also provides the best opportunity to meet the needs of the community by potentially offering expanded services.

In Arpil of 2015 a legal analysis was performed by Clark,Mize, and Linville. Currently, the service area is split into two separate taxing distrctits. The legal analysis explored options for the formation of one taxing district. The analysis determined the best option for the formation of one taxing district would be to join the two existing districts. This would require a petition signed by 51% of the registered voters of the joining district. In late 2015 both hospital boards voted to join the taxing distrctits pending approval of the petition.

A service line analysis was performed by Cerner Corporation in December of 2015. The service line analysis evaluated the service lines each hospital currently have to determine if those service lines should continue as well as identify any expanded or new service lines. The analysis recommended continuing all current service lines while expanding physical therapy, occupational therapy, speech therapy, infusion therapy, and telehealth. Recommendations were made to add hydrotherapy and diabetes education as new service lines.

Future plans include hiring a consolidation project manager to spearhead the efforts, a petition drive, relocation approval from CMS, interlocal agreement, and facilitation of a new facility. The ultimate goal is to create a sustainable model of healthcare in Harper County, KS while meeting the community needs. A tentative timeline of future events and accomplishments is below.

TENTATIVE TIMELINE
